

INDOOR ACCESSORIES COLLECTION 2021

Contemporary Long Fire Tool Set

This four piece fire tool set with its straight-line design is a decorative focal point. Made of steel with stainless steel handles, this set is particularly stable, robust and durable. On one side the set includes a poker to turn the logs, with a rake to move the coals, and on the other, an ash shovel and broom to clean the cold fireplace. With its modern look it is a perfect and simple method to keep your fireplace clean and functioning effectively.

Material:
Steel
Colour: Black
Measures: W22xH68xD22 cm
Weight: 5 kg

Morsø Classic Fire Tool Set

Crafted from robust cast iron and steel the Morsø Classic fire tool set takes inspiration from the traditional wood burning fireplace, combined with genuine Danish craftsmanship to create a product specifically designed for fireside placement. This set comes complete with a steel poker, brush, and shovel and a cast iron base, that holds the signature Morsø squirrel.

Material:
Cast Iron & Steel
Colour: Black
Measures: Ø17xH69 cm
Weight: 4 kg

Morsø Complete Fire Tool Set

Morsø Complete has been designed by Morsø's own chief architect Karsten Aagaard. His Complete Fireplace Tool Set has been well thought out and has clean lines, making it a perfect companion to today's modern fireplaces. The three tools are elegantly hidden away behind a steel door. The tools are made of quality materials with useful rubber grips.

Material:
Steel
Colour: Black
Measures: W20xH40xD10.7 cm
Weight: 5 kg

Morsø Conform Fire Tool Set

With more than 160 years of experience in making stoves and accessories Morsø has designed and released the stylish fire tool set, The Conform. Morsø Conform Fire tools, designed by Karsten Aagaard are a modern version of the Morsø Classic Fire tools due to its simplicity and stylish appearance. Consisting of three steel tools: a Brush, Shovel and Poker finished in matt black with soft rubber handles that sit proudly on a cast iron base.

Material:
Cast Iron, Steel & Rubber
Colour: Black
Measures: Ø15xH61 cm
Weight: 4 kg

Morsø Curva Fire Tool Set

With the Curva range, Morsø has created a beautifully minimalist fire tool set, typical of its simple high quality Danish design and a great addition to its accessories range. Every piece performs a task and complements the other pieces in the range. The dish stores the firelighters, the dustpan holds the brush and also forms the lid of the dish.

Material:
Steel & Rubber
Colour: Black
Measures: Ø24xH13 cm

Morsø Curva Poker

To complement the Curva fire tools, Morso have produced the Curva poker. Made in a pleasing shape but also comfortable to hold, the poker is ideal for cleaning up and particularly suitable for moving round the embers and breaking them into smaller pieces. It is also magnetic so, when not in use, the poker attaches to the back of the stove to tuck out of the way.

Material:
Steel
Colour: Black
Measures: L46 cm
Weight: 1 kg

Morsø Ellipse Fire Tool Set

The Morso Ellipse Fire Tools consist of a brush, shovel and poker which also doubles as a blowpipe, all contained in a bucket that can be used to store gloves, matches and fire starters. The breather function of the poker is ideal for providing extra air to the fire during ignition and when cleaning your stove the bucket is perfect to use for the removal of cold ashes. The Ellipse is the perfect product to ensure your safety and ease when tending to your fire.

Material:
Steel
Colour: Black
Measures: W27.5xH30xD22 cm
Weight: 5 kg

Morsø Loop Fire Tool Set

The Morso Loop Firetool set is an ingenious contemporary style of fireside toolset, the tool pieces fitting together to hang as one rectangular shape on the wall. The set consists of three ergonomic parts. The brush is incorporated into one half of the toolset, the other half forming the ash scoop, made from a hard-wearing rubberised finish. The ash rake has a soft rubber handle. When not in use the Morso Loop fire tools set hangs neatly from its magnetic wall base.

Material:
Steel & Rubber
Colour: Black
Measures: W16xH50 cm
Weight: 5 kg

Wimmera 3-piece Fire Tool Set

This decorative 3 piece companion is the perfect enhancement for any traditional fireplace. The set features a poker, a shovel, and a brush all crafted from durable forged steel with your **choice of loop or wooden handles**. When not in use the tools can be hung on the matching forged steel stand complete with a claw foot base. This sturdy and durable design will add significant visual interest to any hearth or home.

Material:
Forged Steel
Colour: Black
Measures: H76 cm
Weight: 5 kg

Wimmera Loop 4-piece Fire Tool Set with Tongs

Crafted from durable forged steel, this fireplace companion set features a poker, a shovel, a brush and tongs. These four integral tools attach to the matching stand to ensure practical and safe use. The loop design is the epitome of understated charm and exudes a true sense of quality craftsmanship.

Material:
Forged Steel
Colour: Black
Measures: H76 cm
Weight: 5 kg

Wimmera Loop 4-piece Fire Tool Set with Rake

Crafted from durable forged steel, this fireplace companion set features a poker, a shovel, a brush and rake. These four integral tools attach to the matching stand to ensure practical and safe use. The loop design is the epitome of understated charm and exudes a true sense of quality craftsmanship.

Material:
Forged Steel
Colour: Black
Measures: H76 cm
Weight: 5 kg

Austroflamm Clou Round Log Holder

The stylish solution for storing wood. The Austroflamm Clou "Wood Box" allows you to store firewood right next to your fireplace. The back lacquered steel ring that sits of the wooden box exactly matches the Clou Xtra fireplace window. Even the wood of the plinth can be found in the handles of the Clou Xtra. Don't have an Austroflamm fireplace, that's okay with a diameter of 45.2cms the Clou Round Log Holder will hold enough fuel for any fire.

Material:
Steel & Walnut
Colour: Black
Measures: Ø45.2xH48.7xD23.3 cm
Weight: 5 kg

Austroflamm Woody Log Holder

The Austroflamm Woody "Wood Box" log holder was designed to store the fuel in the Woody fireplace. The Wood Box has a standing black steel oval frame sitting on beech and natural walnut wooden base. Of course the Woody "Wood Box" can be used to store wood for any fireplace. Its rustic yet subtle exterior fits perfectly into any environment.

Material:
Steel & Walnut
Colour: Black
Measures: W33.6xH62xD27 cm
Weight: 5 kg

Contemporary Curved Log Holder

This wonderful contemporary log holder is made from 3mm Plate Steel with a matt black finish. The log holder is deceptively spacious and can hold a surprisingly number of logs. With handles placed either side it is easy to carry outside for filling. When loaded with freshly cut logs this fireside log storage holder becomes a effortlessly modern centrepiece and is the perfect finishing touch to any fireplace.

Code: LH301
Material:
Plate Steel
Colour: Black
Measures: W45xH20xD30 cm
Weight: 7 kg

Curved Log Holder Stainless Steel

A truly stylish and contemporary take on the traditional log holder. Crafted from 1.5mm stainless steel, this curved log holder is ideal when adding finishing touches to your fireside surround. Completely open in design, it allows for air to circulate, keeping fuel dry and ready to use throughout the winter months. Handles adorn each side of the holder, ensuring carrying is made easy and hassle free.

Code: LH304
Material:
Stainless Steel
Colour: Stainless Steel
Measures: W48xH14xD33 cm
Weight: 5 kg

Curved Black Log Holder

This curved log holder is perfect to keep all your firewood neatly stored and out of the way, whilst also allowing it to remain in a handy position near the fire. The simple and appealing design comes in a black powder coat finish. Hugely practical this product is both sturdy and light weight and looks impressive filled to the brim with logs. The whole carrier is made of 3mm plate steel and comes complete with handles for convenient carrying of firewood from your wood pile to your fireplace.

*Code: 305
Material:
Plate Steel
Colour: Black
Measures: W49xH29.8xD30 cm
Weight: 5 kg*

Morsø Canvas Wood Carrier

This handy wood carrier is made of black canvas and has sturdy wooden handles. Complete with the Morsø logo the carrier makes it easy to carry wood logs from the wood box to the fire. Hard wearing yet compact and light.

*Material:
Canvas log carrier with wooden handle
Colour: Black
Measures: W127.5xL42 cm
Weight: 1 kg*

Morsø Curva Felt Basket

With it's Curva range, Morsø have continued their philosophy of stylish design and practicality from their stoves onto fireside accessories. The Curva Storage Basket is a crafted container with plenty of volume for carrying logs to the fireplace. Printed with the Morsø logo, this basket is made from a soft but durable felt material with comfortable carrying handles.

*Material:
Canvas log carrier with wooden handle
Colour: Black
Measures: W127.5xL42 cm
Weight: 1 kg*

Morsø Firewood Box & Carrier

This is a firewood box with a simple and elegant design that makes storage of extra logs discrete and stylish. The Morsø Firewood Bucket is painted in a non-gloss powder coating, giving the bucket the same surface finish as a Morsø stove and has a small Morsø logo on the side. The box comes with the Morsø Canvas Log Carrier. This handy wood carrier is made of black canvas and has sturdy wooden handles.

*Material:
Matt Black Enamelled Steel with a non-gloss powder coating with Black canvas log carrier with wooden handle
Colour: Black
Measures: W38xH32xL45 cm
Weight: 8 kg*

Radius Log Holder

The minimalistic style of this contemporary design allows the natural beauty of the freshly cut wood to become the main feature. The radius log holder combines modern elegance with 3mm plate steel powder coated in flat black offering a beautiful finish. The soft curve of the log holder is open in design, allowing air to circulate, and there is enough space to fit multiple stacked layers of logs and kindling, making this the perfect fireside companion.

Material:
Plate Steel
Colour: Black
Measures: W65xH11xD42 cm
Weight: 10 kg

Upright Log Holder Standard

This log rack is the perfect solution for practical indoor storage of firewood. Store plenty of logs in this tall, narrow rack. The holder is made of 3mm plate steel and powder coated in a flat black finish making it resistant to corrosion. The holder can also be used for storing other items such as magazines, newspapers or books. When filled this firewood holder is a decorative piece of furniture for your home.

Material:
Steel
Colour: Black
Measures: W30xH70xD30 cm
Weight: 18 kg

Upright Log Holder Standard and 4-piece Fire Tool Set

Identical to the Upright Log Holder Standard but with the added benefit of a contemporary 4-piece fire tool set. Made of steel with stainless steel handles, this set is particularly stable, robust and durable. The set includes a poker to turn the logs, a rake to move the coals, an ash shovel and broom to clean the cold fireplace. Everything you need for your fireplace at your fingertips.

Material:
Steel
Colour: Black
Measures: W30xH70xD30 cm
Weight: 20 kg

Upright Log Holder Large (with optional 4-piece Fire Tool Set)

Disorganised wood piles look unsightly. With this log holder, you can simply pile the logs one on top of the other. Everything stays put, leaving you with an organised pile of wood, which looks contemporary and elegant at the same time. The holder is made of 3mm plate steel and powder coated in a flat black finish making it resistant to corrosion. This Large Upright Log Holder is also available with a 4-piece fire tool set.

Material:
Steel
Colour: Black
Measures: 30Wx100Hx30D cm
Weight: 24 kg (26 kg with the optional 4-piece Fire tool Set)

Morsø Ash & Storage Bucket

When your wood-burning stove, outdoor oven or fireplace needs to be emptied, it is important to store the ash in an airtight container made of non-combustible material. The Morsø Ash Bucket is a four gallon container made of steel and has a tight-fitting lid for safe storage until the embers have entirely died down. Recycling Ash: ash from clean timber makes fine fertiliser for your garden.

Material:
Steel
Colour: Black
Measures: Ø30xH37 cm

Morso Humidifier

The Morso Cast Iron Humidifier is designed to mitigate the effects of any dry air caused by a wood burning stove. Simply fill the Morso Humidifier with water and place on top of the stove and the humidity in the surrounding area will be lifted. Morso cast iron kettles are available in two sizes, 2.0L or 4.5L. Made of enamelled cast iron, the kettles are suitable as humidifiers and as a decoration on the stove.

Material:
Cast Iron
Colour: Black
Capacity: 2L-4.5L
Weight: 5 kg

Morso Axe with Hickory Wood Handle

With a beautiful linseed-oiled handle made from USA Hickory wood which is hard and dense with exceptional flexing strength, and a traditionally forged high grade carbon steel blade, the Morso Axe comes with a genuine leather sheath and sharpening stone. The Morso Axe head is forged from C45 high grade carbon steel with a Rockwell hardness of approximately 53-56HRC (According to DIN 7287/B).

Material:
Hickory Wood & Steel
Colour: Hickory Wood
Measures: W16.5xL52 cm
Weight: 2.4 kg

Morso Classic Trivet

This decorative cast-iron trivet, Morso's original trivet, is ideal for both the dinner table and under a pot plant on the floor. The combination of the heavy cast iron and the airy design with the original logo from 1853 gives it a robust feel, yet at the same time a light and elegant look. The trivet has small rubber feet so it won't scratch if placed on your table or floor.

Material:
Cast Iron
Colour: Black
Measures: Ø19xH2 cm
Weight: 0.9 kg

Morso Squirrel Trivet

This decorative cast-iron trivet, comes with the well-known squirrel motif from the 1930's. If you are going to use either trivet under a humidifier or kettle on the stove, remove the rubber feet first. If you have a kettle or humidifier sitting on your stove, we recommend placing the trivet under the kettle. It ensures a more controlled evaporation.

Material:
Cast Iron
Colour: Black
Measures: Ø19xH2 cm
Weight: 0.9 kg

Morso Fire and Grill Glove (R/L)

This practical protective glove is made with thick suede and is available in black with the Morso logo. With good insulation, you can move burning sticks around without burning yourself. A practical and indispensable friend to keep close at hand, when you light up your outdoor oven or your indoor fire. This glove comes in a choice of right or left hand.

Material: Black Suede
Colour: Black
Measures: L36xB12 cm
Weight: 0.25 kg

Morsø Frying Dish

Cast Iron frying dishes are perhaps the most versatile of all pan types. One of the best things to use to sear meat to perfection. Whether it's grilling steak, and vegetables, making omelettes and cooking pancakes with crisp caramelised edges the Morsø Frying Plates porous structure will spread heat like no other material. This means it is great for not just high temperature frying and searing but for low temperature cooking. Made of double coated cast iron, the charming and rustic look of this dish makes it perfect for use as a hot or cold serving dish.

*Material: Cast iron
Colour: Black
Measures: Ø32 cm
Weight: 3.1 kg*

Morsø Handle for Grill Grate/Grill Plates

Morsø brings you the a safe removeable handle designed for their cast iron plates. It means you can switch from one pan to another in one simple movement. Cook on the oven and serve directly on the table, the steel grip ensures that you will not burn your fingers. Removing the handle allows for space-saving easy storage of your cast-iron plates. The steel handle is suitable to be used with the Frying Dish and the Grill Plate that comes with the Morsø Grill Forno II.

*Material:
Matt-polished stainless steel
Measures: W27xH2.5xD2.8 cm
Weight: 0.272 kg*

Morsø Vetro - pizza and frying plate

A multifunctional frying plate and decorative serving dish, suitable as a beautiful base on the dining table, for the serving of various dishes - cold or hot. Vetro withstands up to 500°C and is thus a perfect pizza plate - regardless whether the pizza is baked in an outdoor pizza oven, on the grill or in the kitchen oven.

*Material: Ceramic Glass
Colour: Black
Measures: Ø34 cm
Weight: 0.897 kg*

Morsø Multi Cocotte with Skillet Moisture Lid

Made from twice enamelled cast-iron the Morsø Multi Cocotte is suitable for all hob types (including induction and ceramic), ovens and grills. The rustic, beautiful and solid cast-iron enhances any table and exudes quality. The cocotte retains the juice and vitality of your ingredients, enabling you to conjure up the most beautiful and sumptuous dinners.

*Material:
Twice Enamelled Cast Iron
Colour: Black
Measures: Ø28 x12H cm 4.6 litres
Weight: 8.2 kg*

Morsø Multi Cocotte with Griddle Moisture Lid

The Morsø Multi Cocotte with griddle lid is a versatile item of cookware and makes a striking and elegant addition to any kitchen inside or out. The heavy lid acts as a self-basting tool and will maintain the moisture in your cooking. The design also helps to contain the steam when cooking vegetables preserving the health-boosting vitamins and taste. The griddle lid can even be used to grill meat and vegetables. Suitable to be used on induction ovens.

*Material:
Twice Enamelled Cast Iron
Colour: Black
Measures: Ø28 x12H cm 4.6 litres
Weight: 8.3 kg*

Morsø Pizza & Herb Cutter

The Morsø Pizza & Herb Cutter is a quality, highly functional, beautifully designed chopper suited for cutting, slicing and chopping herbs, and for cutting pizzas. Then oiled oak wood grip naturally embraces the slightly rounded blade made from food grade brushed stainless steel blade. Multifunctional it provides a good grip, and only small movements are required to get a good effort. You only need to press lightly on the rounded wooden grip and the curved harp blade easily cuts through crispy pizzas crusts, and quickly chops herbs and vegetables to the thickness you desire.

*Handle: Oiled Oak
Cut: Matt-polished stainless steel
Measures: L28xH9.5 cm
Weight: 0.25 kg*

Morsø Grill Fork - Culina BBQ Range

Grill fork in an exclusive and elegant design, made from 2.5 mm steel. Here, design and function fuse together most elegantly. Small details such as a leather strap and handle in oak makes the CULLINA BBQ fork appear exclusive, it also makes it easy to hang it up on the grill.

*Handle: Oiled Oak
Fork: Matt polish stainless steel
Measures: L44 cm
Weight: 0.30 kg*

Morsø Grill Turner - Culina BBQ Range

Grill turner in an exclusive and elegant design, made from 2.5 mm steel. Here, design and function fuse together most elegantly. Small details such as a leather strap and handle in oak makes the CULLINA BBQ turner appear exclusive, it also makes it easy to hang it up on the grill.

*Handle: Oiled Oak
Turner: Matt polish stainless steel
Measures: L44 cm
Weight: 0.45 kg*

Morsø Grill Tongs - Culina BBQ Range

Grill tongs in an exclusive and elegant design, made from 2.5 mm steel. Here, design and function fuse together most elegantly. A fine little detail such as the leather strap not only makes the CULLINA BBQ grill tongs appear exclusive, it also makes it easy to hang it up on the grill.

*Tongs: Matt polish stainless steel
Measures: L45 cm
Weight: 0.50 kg*

Digital Moisture Meter

Firewood needs to be 'seasoned' before using and should be stored at least a year after the felling, and the faster it is split the faster it dries. To ensure you are getting the most efficient and environmentally friendly combustion, it is recommend to check your wood using a moisture meter. The optimal moisture percentage in firewood should be between 10-15. Simply split the wood and insert the metal tip into the inside of the wood for a quick highly accurate rating.

*Material:
ABS Plastic
Colour: Black
Measures: 6.7Wx2Hx12.8L cm
Weight: 0.14 kg*

GK Child Guard Standard

Crafted from high-quality steel; and finished in a sleek black finish to complement any interior setting, this fireplace guard has been specifically designed to help protect children and animals from the heat of your fireplace. Featuring a classic three-fold design with a 67 cm wide gate, this fire guards open design allows the heat to circulate without obstruction. A rear spreader bar allows you to fully encase the fireplace, but for added peace of mind we highly recommend the guard is fitted to the wall.

*Material: Steel
Colour: Black
Measures: W108xH80xD105.5 cm
Weight: 19 kg*

GK Child Guard Large

This classical fire guard has been crafted using quality steel; and coated in a sleek black finish. The bespoke open design allows the heat to circulate without obstruction, and is ideal for ensuring that the entirety of the fireplace is unreachable by small hands and pets. The 67 cm wide gate opens from either side to allow for easy access to the heater. A added rear spreader bar allows you to fully encase the fireplace, but for added peace of mind we highly recommend the guard is fitted to the wall.

*Material: Steel
Colour: Black
Measures: W124.5xH80xD125.5 cm
Weight: 22kg*

GK Child Guard Inbuilt

A simple take on a timeless classic, this inbuilt child guard has been crafted using quality steel; and coated in a sleek black finish. The fire is accessible by a 67 cm wide gate that opens from either side. For added peace of mind we highly recommend the guard is fitted to the wall using the fixing kit supplied. A must have for those who love to enjoy a roaring fire without the worrying about the safety of their children and pets.

*Material: Steel
Colour: Black
Measures: W130xH80xD30 cm
Weight: 12 kg*

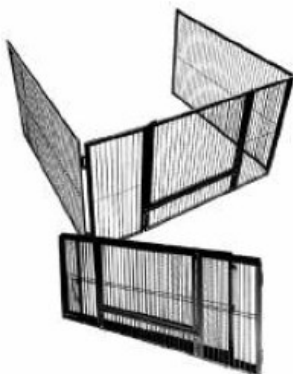

GK Child Guard Corner

Specifically designed for a corner installation this child guard has been crafted using quality steel; and coated in a sleek black finish. This three-sided corner guards fits a W120xD120 cm hearth and the middle section includes a 82 cm wide gate for easy access. Wall to wall the guard measures W168 cm. For added peace of mind we highly recommend the guard is fitted to the wall using the fixing kit.

*Material: Steel
Colour: Black
Measures: W120xH80xD120 cm
Weight: 14 kg*

GK Child Guard Fold-Away

This Child Guard combines classic design and functionality. The steel frame is crafted using quality steel, coated in a sleek black finish. With simple elegant lines this three sided guard folds for easy ,manoeuvrability and storage. The fire is accessible by a 67 cm wide gate that opens from either side. Comes fully assembled. For added peace of mind we highly recommend the guard is fitted to the wall using the fixing kit supplied.

*Material: Steel

*Side Panels: W115 cm
Front Panel : W129.5 cm*

Firebuilder

The natural fire starter with a scientifically advanced formula to create a warmer fire faster. Made from 100% recycled material, Firebuilder utilizes recycled cardboard boxes which are then turned into paper pulp and rebuilt into the perfect thickness, it is then coated in a specially designed wax, making it the cleanest burn you will experience from any type of fire lighters. Firebuilder will light your fire quicker and with less hassle than traditional methods, and you won't even need any kindling. Perfect for fireplaces, wood stoves, the BBQ and Fire Pits.

Material: Recycled cardboard

Stove Bright Firestarter

Non-toxic, odorless when burning and nearly smokeless. The Stove Bright Firestarter makes starting pellet, wood and coal stoves, fireplaces, BBQs and campfires easier. This bottle of Stove Bright Gelled Firestarter offers a reliable and convenient way to start a fire. Just squeeze some onto your fuel, light it and you're done. The gelled liquid stays where you put it and the easy-to-use flip top, squeeze bottle keeps it tidy. It burns without odour, toxic smoke or gas making it an environmentally friendly product.

*Colour: Blue Gel
Volume: 950 ml*

Firetool Basic Shovel & Brush

The Fireplace Brush and Shovel sets are the perfect complement to more compact fireside hearths and ideal where space is limited. Traditional in shape and design the black shovel and brush set has been crafted from a combination of steel and natural wood. The shovel comes complete with a tactile handle and a angled lip to ensure all ash and debris are contained during use, while the brush features sturdy bristles for easy cleaning. Please note that this set is only suitable for sweeping up cold ash.

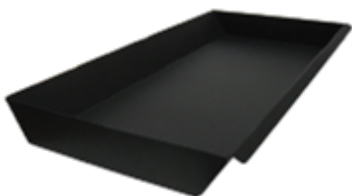

*Material: Metal; Wood with
Polypropylene Brushes
Colour: Black &
Shovel Measures: W19xH40xL22 cm
Brush Measures: W40xH8xL28 cm*

Log Grates

Fire grates are an essential piece of a solid fuel fire allowing for logs to burn brightly and ensuring air is drawn from underneath to fuel the fire. The gaps in the log grates allow oxygen to be drawn from underneath the fire and allows hot ash to be collected below. These fire grates are made from sturdy cast iron and have four legs allowing it to stand freely in the fireplace opening. The shapes allow for the wood to be contained in the grate to get the most out of each piece.

Ash Pans

We stock a range of Ashpans for domestic open fireplaces in a variety of sizes to suit most fireplaces. Simple to use, the Ashpan makes it easy to clean out your hearth without making a mess. A fireplace grate would normally sit above an Ashpan so hot embers and ash from the burnt fuel can be disposed of safely once cooled. Our Ashpans are designed to sit in between the legs of our matching fireplace grates meaning you only need to slide it out using the convenient lip eliminating the need to lift a heavy grate every time you clean the fire.

Flue Brushes

Through use of your fireplace your chimney can build-up with soot and other tiny particles. Over time, creosote can build up within your chimney from burning wood. Creosote can partially block the chimney which will lead to a less efficient fire, it can also lead to blackening in the fire, where soot from the fire rises out into your home rather than up the chimney. These traditional chimney sweep brushes are ideal for cleaning your flue. Also available in a set that comes with three 1.2 m rods (total 3.6 m—additional rods can be added to achieve longer lengths).

Material: Polypropylene
Colour: Blue
Measures:
5" Ø12.5 cm
6" Ø15.0 cm
7" Ø17.5 cm
8" Ø20.0 cm
16" Ø40.5 cm

Colour: Grey
Measures:
6" 15.0 cm

Hot Water Booster

The Hot Water Booster is a stainless steel piece of pipe that is connected externally to the flue spigot of your wood fired oven. It is designed to transfer heat from your stove and increase your 'hot' water storage effectively lowering your electrical bill. The Booster includes an adapter to fit a 6" flue. Made from stainless steel #304 construction with a 0.16 cm wall thickness and a 0.60 cm cavity, this Booster offers you an additional 2-3kW of extra power.

Material: Stainless Steel
Measures: Ø15.2xH61 cm
Weight: 18 kg

Vitcas Ceramic Strip

This ceramic fibre strips provides a superior seal between stove panels. The ceramic material has properties of thermal expansion which can be used in recommended applications such as sealing between glass and stove door, between stove panels and as a general high temperature gasket. The Ceramic fibre is a soft paper like seal, and creates an air tight seal. Refractory ceramics can be used in applications in technology and engineering due to their mechanical properties and resistance to high temperatures up to 1260°C.

Material: Ceramic Fibre
Colour: White
Measures: W0.6WxH0.3xL1000 cm

Vitcas Fire Cement

Vitcas Black Fire Cement in a 500g and 5kg tub is a finely ground putty material which is resistant to high temperatures up to 1250°C. It is used for the sealing and joining of internal flue pipes; repairing small cracks on firebricks, and fire backs and seals small repairs on fireplaces. The Vitcas 600g cartridge is a smooth paste that sets rock hard when exposed to air and is designed to seal visible metal to metal joints and in the assembly of cast iron stoves, cookers and ranges. It also can be used to seal visible joints between flue pipes.

Colour: Black
Volume:
500g tub;
600gm cartridge (for caulking gun);
5kg tub

Vitcas Rope Adhesive

The Vitcas Rope Adhesive is a high temperature adhesive that withstands temperatures up to 800°C and is used to secure thermal rope/tape and ceramic fibre seal to the fireplace door. Simply shake the bottle to mix the contents thoroughly and ensure that the surface is free from dust, debris and grease. Apply a thin bead of the adhesive directly from the bottle and press the seals firmly in place. After 15 minutes you can close the door and adhesive will automatically set from the heat of the stove.

Colour: Black
Volume:
30 ml
125 ml

Vitcas Glass Cleaner

Removing built-up soot, creosote, and burnt on wood sap found on tempered glass is simple with this powerful and fast-acting glass cleaner. Specially designed for fireplace doors you simply spray the product onto the cold surface using the trigger spray bottle wait a few minutes and then wipe clean. For particularly hard stains simply repeat. No harsh fumes and your glass will be left in pristine condition.

Volume: 650 ml

Stove Bright Glass Cleaner

Stove Bright Glass Cleaner is a concentrated liquid that is specially formulated to cut through baked on carbon and creosote deposits found on tempered glass, porcelain, and baked-on enamel. It contains a non-streaking formula which removes layers of smoke stains with ease from your wood, coal, and pellet burning stoves. Ensure your glass doors are always looking their best with this 16 oz pump bottle. (Caution: this product will cause aluminium to discolour).

Volume: 475 ml

Stove Bright M230 Sealant

M230 High temperature sealant is a single product solution for all facets of manufacturing, installation and maintenance applications for steel. Excellent for sealing the firebox and venting joints of gas, pellet, and wood stoves. M230 is also an effective door gasket adhesive. Convenient caulking tube packaging makes for easy application. It air dries to allow painting before or after it is heat cured. Temperature resistant to 593°C (1100°F), peak temperatures (900°F continuous).

*Colour: Black (Dries Grey)
Volume: 300 ml*

Smart Burn

SmartBurn is a steel tube filled with a natural non-toxic catalyst solid at room temperature. This enhancing device removes existing creosote and prevents further build-ups in your flue. Your fire heats the catalyst and it melts. A vapour stream is emitted into the fireplace making the wood burn more efficiently. SmartBurn has been scientifically tested for efficiency and safety, and has won over 70 Awards for Environmental Sustainability and Innovation.

Weight: 0.50 kg

Stove Bright RTV Hi Temp Silicone

Stove Bright RTV Silicone Sealant is a multipurpose, easy to use, adhesive sealant that will withstand high temperatures. The product creates a flexible seal and will adhere to various surfaces, including aluminium, stainless steel, glass, and ceramics. The easy to use 10.1 oz cartridges have a resealable nozzle making it easy to store and keep fresh for re-use. The Red Sealant is heat resistant to temperatures up to 316°C and the Black and Clear Sealant is heat resistance to 260°C.

Colour:

M050 Clear (Rated to 260°C)

M350 Red (Rated to 316°C)

M250 Black (Rated to 260°C)

Volume: 300 ml

Stove Bright M200 Gasket Cement

Stove Bright Gasket Cement is a special adhesive that resists extreme temperatures generated by your heating unit. Gasket cement will withstand temperatures in excess of 1093°C (2000°F) nearly twice the maximum temperature that the average wood heating stove will reach. It is formulated for just the right amount of absorption into the gasket to promote maximum adhesion to the door. Available in a 4oz squeeze bottle with an convenient "cut to size" applicator.

Colour: Grey

Volume: 120 ml

Pioneer Fire Cement

Pioneer Fire Cement is a specifically formulated black silicate cement for sealing joints in sold fuel appliances, flue systems, furnaces, kilns, chimney masonry and other industrial automotive applications subjected to intense heat. Heat resistant up to 650°C the cement comes in two sizes, a 145 gm tube or a 300 ml cartridge that is suitable to use in a caulking gun.

Colour: Black

Volume:

145 g tube

300 ml Cartridge

Morso Hi Temp Paint

Morso Hi Temp Paint is a heat resistant paint suitable for all Morso cast iron models. The Indoor thermolac paint has been specially developed to ensure it will withstand temperatures up to 600°C and is formulated for easy application. For the Morso Outdoor Range Morso offers a convenient touch up coating repair kit for smaller scratches or for larger areas the Morso Outdoor Maintenance Kit comes with an abrasive sponge (grain 180) and a paint designed for outdoor use.

Colour: Senotherm (Dark Grey)

Coverage: (Average) 2.5m² per can

Size:

Aerosol: 400 ml

Touch-Up: 20ml

Austroflamm Hi Temp Paint

The Austroflamm Thermohit is a heat resistant paint suitable for all Austroflamm models. This indoor paint has been formulated to stand high temperatures associated with wood fires and comes in an easy to use aerosol can for ease of application. Before using remove any excess dirt or ash that has accumulated. Ensure any areas you do not want painted are taped off and the room is well ventilated. Paint in light layers and build up the coats. Always remember to cure a fire after painting by lighting a few small kindling fires and letting them burn out.

Colour: Anthracite (Dark Grey)

Coverage: (Average) 2.5m² per can

Size: 400 ml

Stove Bright Hi Temp Paint

Stove Bright® High Temperature Paint is the industry's premier high temperature paint. It is formulated with a unique blend of heat resistant pigments in a silicone polymer resin that provides excellent color retention and film integrity in working temperatures up to 650°C (1200°F). Stove Bright® High Temperature Paint is designed for rapid curing and great working properties over ferrous metal surfaces. It is ideal for wood, pellet, and gas stoves as well as stove pipes, engines, engine manifolds, and many other metal substrates that are subject to high temperatures.

Coverage:
Aerosol: (Average) 2.5m² per can
Brush On (Average) 7m² per litre

Volume:
Aerosol: 300 ml
Tins: Brush-On: 1 litre; Bulk : 4 litre
