Benches

to elevate and style your fireplace.

When designing a hearth to suit your living space our beautifully crafted benches are an attractive and practical solution, perfect for elevating your Cheminees Philippe and other fireplaces.

A raised hearth makes viewing the fire more accessible, saves your back when refuelling and cleaning your firebox and provides a very handy space underneath to neatly store your firewood.

These robust, steel fabricated, Australian made benches require no assembly.

Note: Please avoid sliding firebox onto the powder coated surface to prevent marking or scratching when positioning firebox onto base. Surfaces can be easily cleaned with damp, lint free cloth.
