

ELEMENT 900

IMPRESSIVE FLAMES FOR SMALLER SPACES

Make an impressive statement with the Element 900, a smaller version of our best-selling fireplace that will wow your guests in living spaces of all shapes and sizes. It's designed with the same stunning clean lines and beautiful flames but the 900 is more suited to compact spaces and modest rooms. Wonderful things really do come in smaller packages.

You can choose from a variety of multimedia options to match your interior design, such as driftwood, pebbles, logs, coal or the new Redgum media set and you can even choose your trim size for a tailored finish, including the new 50mm and 18mm sizes for a clearer view of the firebox.

Power balanced flue

Natural gas & LPG

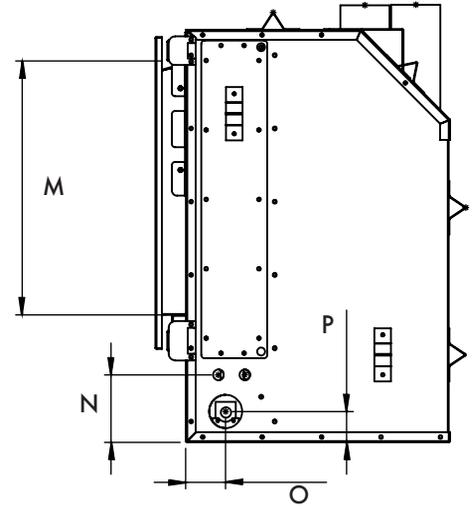

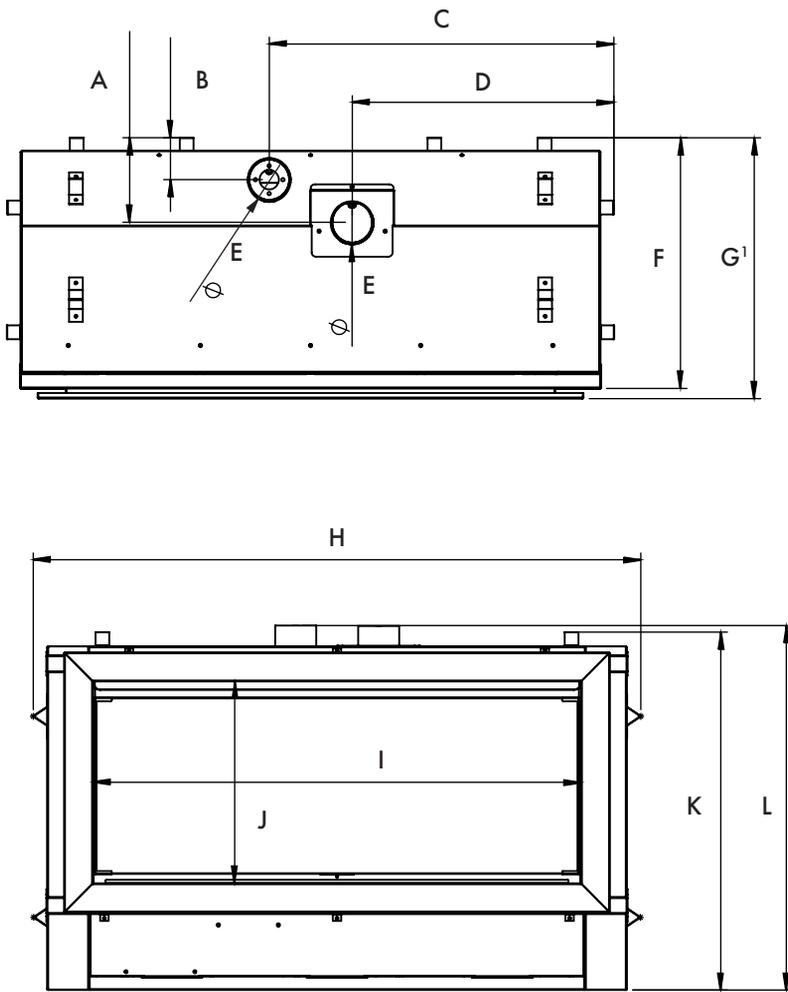

Control using either programmable Remote Control or Wi-Fi app

Space heater with maximum safety

Impressive 4.4 star energy rating

G¹- Dimension are subject to plaster thickness

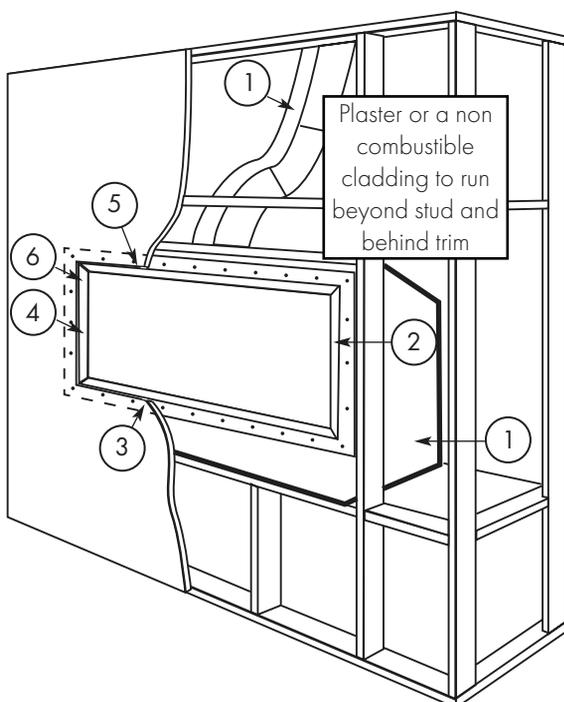

MINIMUM FRAMEOUT DIMENSIONS

50MM TRIM

A	B	C	D
660	1120	460	143

18MM TRIM

1. Install Element onto base and connect flue, gas and power.
2. Fit 18mm trim assembly.
3. Attach 4 sided flange kit to frame.
4. Remove 18mm assembly.
5. Clad wall to flange kit and finish.
6. Refit 18mm trim assembly.

NOTE :

If the wall is being plastered we recommend fixing stopping bead up to the flange to give a clean shadow line. The depth of the flange profile is 22mm to allow for tiling or rendering. If plaster is used we recommend packing out to 22mm.

SPECIFICATIONS OF ELEMENT 900
