from the best radiant floor heating system available

Fully Automated ● 100% Coverage ● Guaranteed Quality

Comfort of Radiant Warmth

Heated floors will make all the difference to your new home or renovation project, running in rhythm with your routine to create living spaces that are exquisitely comfortable in any season.

Radiant heat is clean, effective and as natural feeling as sunshine. Warmth is delivered to the coldest parts of the body first, with breathe-easy temperatures maintained at eye level. You can expect a healthier home too: there are no drafts and a dry floor assists in alleviating mold, mildew and dust mites.

Energy conservation is central to Livella's philosophy. The included thermostat shares its smarts with towel warmers, demisters and lights to create a coordinated system that costs less to enjoy. It's a new way of thinking about your family's comfort and the added convenience could save you thousands.

Tailor-made for Superior Effect

Livella's flexible heating cables are fixed directly below tiles, timber, carpet and vinyl allowing heat to transfer rapidly into the room above. Fully automated and thermostatically controlled, warmth is delivered only when and where it's needed.

The Best Thermostat Available

Lifestyle Heating

Set separate weekday & weekend schedules to suit your routine.

Maximum, Minimum

Set safe temperatures for your family and floor coverings.

All-in-One

Switch easily between air and floor temperature management.

Appliance Control

Control lights, fans, demisters and towel warmers to save hundreds of dollars every year.
